Chief's Introduction

Greetings,

Our annual report is intended to provide you with an overview of the division, its organization, its people, and our accomplishments over the past year. I am extremely proud of the contribution that every member of this Division made toward a successful year that saw a drop in both calls for service and criminal activity. Included in this year's annual report are some of the highlights of their work, as well as an overview of the calls for service and crime statistics. Despite the recent economic downturn, the Springfield Police Division was able to continue hiring officers in 2009. This was a direct result of the Cops Hiring Recovery Program Grant. By maintaining current staffing levels, we were able to once again assemble a Safe Streets Task Force for this year, which dealt with street level crime and addressed quality of life issues in our neighborhoods. In addition, the Investigations Sub-Division was brought back to full strength this year. Many other projects are detailed throughout this report. The Springfield Police Division continually seeks to both earn and keep the public trust. We do this by expanding our community partnerships and holding ourselves to the highest standards of ethical policing. The Springfield Police Division remains committed to the core mission of serving all people with the highest degree of pride, professionalism, and personal integrity. It is a privilege to lead this division and it is only with our strong community partnership that we are able to perform our duties effectively.

Uniform Patrol

The Uniform Patrol sub-division is comprised of a core of dedicated men and women. These officers are the first responders who answer the majority of all calls for service from the citizens. In addition to their duty to respond to immediate calls, they actively seek to reduce criminal activity and prevent problems through directed patrol.

Calls for Service and Officer Initiated Activity

In 2009 the Springfield Police Division responded to 64,460 calls for service; down 8.75% from the previous year. This number includes all incidents where an officer responded to a particular location due to a call from a citizen, officer initiated activity, or a request from any other state or local agency. Calls for police service are ranked by priority due to the severity of the situation at hand.

Calls for Service 2000-2009

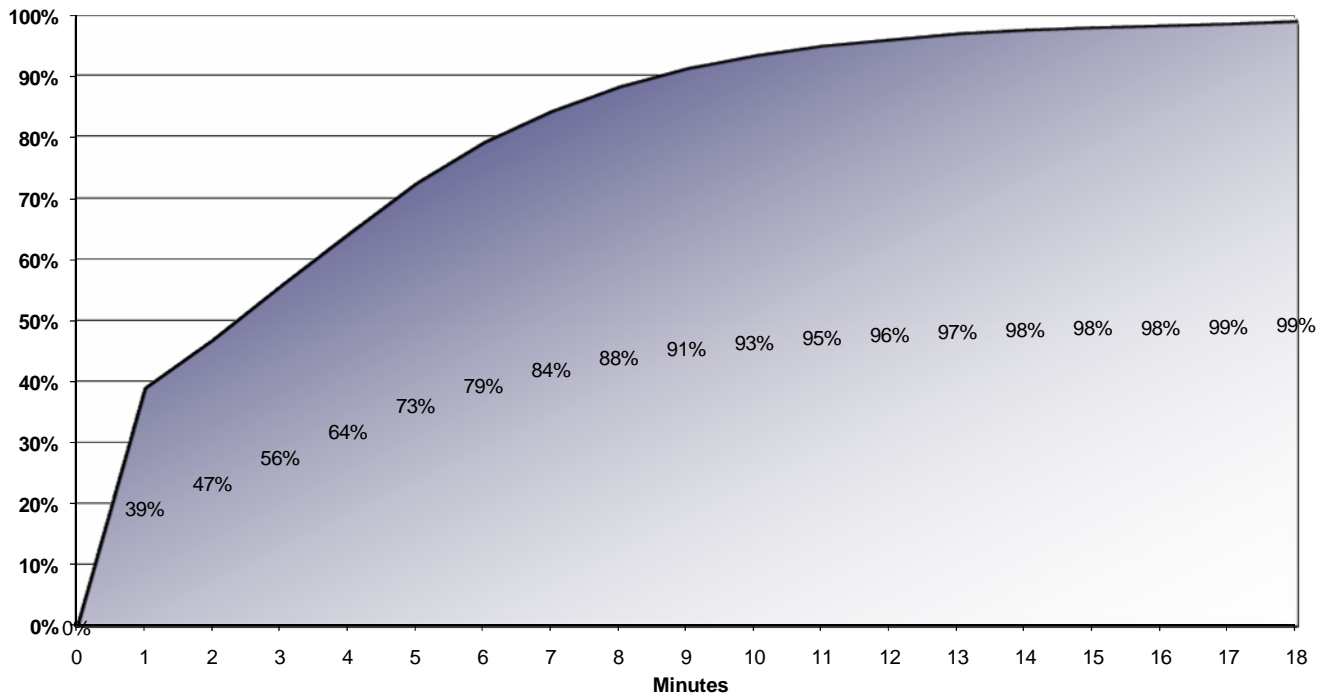

Response Time Analysis

During 2009 our officers responded to 39% of all calls within one minute of dispatch. In addition, we responded to 56% of all calls within three minutes of dispatch; one minute quicker than in 2008.

Staff Services

The Staff Services Sub-Division has five distinct areas of responsibility.

1. The Records Section responds to all requests for information from the public. They are also responsible for entering all case reports, criminal charges, and traffic citations. The Springfield Police Division is the 'agency of record' for all of Clark County, and maintains the arrest records for every agency in the county.
2. The Springfield Crime Lab processes evidence for cases from both Springfield, and Clark County.
3. The Property Room is responsible for the intake, storage, and retrieval of all property related to criminal cases.
4. The Police Service Clerks work in the Clark County Jail. They are responsible for processing every prisoner that is brought into the jail.
5. The Crime Scene Unit is responsible for processing all major crime scenes. All SPD officers are trained as Crime Scene Technicians. Uniform Patrol CST's handle the majority of the day to day cases. The Crime Scene Unit is called in on those major crime scenes where specialized equipment and expertise are required. During 2009 the Crime Scene Unit processed 90 major crime scenes.
