

MBE/WBE Business List

Certification as a City of Springfield, Minority and/or Women Business Enterprise (MBE/WBE) provides formal recognition that a business meets established ownership criteria. This certification focuses on helping to position businesses for procurement opportunities in the public and private sectors, as well as connect them to valuable networking and resource assistance.

The attached business list has been thoughtfully categorized by industry sectors to make it easier for organizations, agencies, procurement professionals and community members who wish to support certified businesses, identify those that align with their needs and interests.

The City of Springfield celebrates the success of certified business owners, and commends their efforts to position their business(es) for new opportunities. We also encourage others to explore the benefits of certification and consider applying. If you or someone you know would like more information, please contact:

Reggie Troutman
