

2011 GENERAL INFORMATION

1. WHO MUST FILE

ALL RESIDENTS – All City of Springfield residents eighteen (18) years of age or older regardless of where and how much income is earned.

NON-RESIDENTS – Non-residents of the City of Springfield who receive income within the City when tax is not fully withheld, or who have business, professional, or rental income (or loss) within the City.

PART-YEAR RESIDENTS – Persons who have resided in the City of Springfield for any portion of the tax year must file a return for income earned during that portion of the year. Indicate new address, date of move, attach verification (i.e., copy of rental agreement, real estate settlement, etc.), and show computation of part year income on Part B Worksheet.

ANYONE WHO RECEIVES A PREPRINTED RETURN PACKET.

OTHER ENTITIES – Including, but not limited to: all corporations, partnerships, trusts, estates, LLC's or other entities conducting business in, performing services in, or deriving income (or loss) from activities in the City of Springfield. Please use form and instructions for Form IT-B.

2. DUE DATE

Returns are due within 3½ months after the end of the fiscal year.

3. EXTENSIONS

Extensions are not granted on an automatic basis.

All extension requests must include a copy of the Federal Extension Request and be filed by the original due date of the return. An extension of time to file is not an extension of time to pay. Interest will be assessed on any tax balance remaining due after the original due date. An extension will not be granted if the taxpayer has prior year balances or prior year filing delinquencies.

The Ordinance makes no provision for extension on the current year's estimate, which must be filed and any amount due paid by the due date.

4. NO JOINT RETURNS

The City of Springfield Income Tax Ordinance makes no provision for the combining of income. A taxpayer and spouse may use this form and complete the left and right side of the form, but each taxpayer's income will be treated separately. Every person who engages in business or other activity or whose salary, wage, commissions, or other compensation is subject to the tax must make and file a return whether or not tax is due.

Jointly prepared returns (combined returns) may create a delay in processing.

5. ROUNDING OFF TO WHOLE DOLLARS

Rounding off to whole dollars is permitted for **total** income and **total** tax amounts. Eliminate any amount less than fifty cents and increase any amount from fifty cents through ninety-nine cents to the next higher dollar.

6. TAXABLE INCOME

Taxable income means gross wages, salaries, and other compensation paid by an employer or employers before any deductions or deferrals, other than ordinary and necessary business expenses in the same manner as provided by the Internal Revenue Code, and/or net profits as herein defined. An annual tax shall be imposed upon all salaries, wages, commissions, and other compensation received including, but not limited to:

Bonuses, sick pay, vacation pay, strike pay, SUB pay, severance pay, tips, lottery and gaming winnings, income from wage continuation plans, contributions to tax deferred plans (401K plans and similar plans), fringe benefits such as car allowances, disability pay if received as a benefit from employment, stock options as indicated by amount on W-2, profitsharing, trusts, estates, director fees, executor fees, and net profits from the operation of a business, profession, enterprise, or rentals.

7. NON-TAXABLE INCOME

Includes, but is not limited to:

Interest, dividends, military pay and allowances, Social Security benefits, welfare benefits, unemployment insurance benefits, workers' compensation, personal earnings of persons under 18 years of age, capital gains, alimony, housing allowances for clergy to the extent that the allowance is used to provide a home, compensation not exceeding \$1,000.00 paid to poll workers, and proceeds from qualified retirement plans as defined by the IRS.

8. RENTALS

Net Rental Earnings from all types of real estate or other property are taxable for Springfield residents no matter where the rental is located. Net Rental earnings derived within the city are taxable to the property owners without regard to their place of residence.

Where a rental property is jointly owned by two or more persons but no partnership, association or other business entity exists, each co-owner shall declare and pay the tax on their share of the net income. An annual return is required even though a loss may have been incurred.

9. PARTNERSHIPS

If you are a partner, and the partnership is located within the city, the partnership must file as a separate entity. You, then, as a partner, are not required to include that income on your Individual Return.

If you are a partner of a partnership located in another city, and the partnership does not file a Springfield Return, you must include your partnership income on your Individual Return. You may claim credit for your share of tax paid to another city by the partnership with proper verification.

10. SCHEDULE LOSSES

Schedule losses are those losses which are the result of allowable expenses incurred in the acquisition of such gross income earned during the year. Schedule losses may not offset wages. **Schedule losses (with exception of Schedule K-1) may offset other schedules, if the schedules are in the same individual's name. The gain or loss of a rental property which is jointly owned by City of Springfield residents must be split between the owners. Partnership losses cannot offset any other type of income including other partnerships.**

11. 2106 EXPENSES

Employee business expenses which are included on Federal Form 2106 may be included as an adjustment in Part B Worksheet, Column C, only to the extent that they are deducted for Federal purposes per Federal Schedule A. Other expenses as listed on Schedule A are not deductible for city purposes. 2106 expenses are subject to the 2% Federal Adjusted Gross Income limitation on Schedule A. If your employment was in another city, the credit for other city tax withheld will be decreased. In order to deduct 2106 expenses you must attach copies of Federal Form 2106 and Federal Schedule A.

12. OTHER CITY TAX OR JEDD CREDIT

Credit for taxes paid to other cities or Joint Economic Development Districts by City of Springfield residents is allowed to be taken against the City of Springfield tax liability. With proper documentation credit will be given for taxes correctly paid to another city up to a maximum of 1% of the income earned in that city. When the tax is not correctly withheld for the city of employment, an adjustment of credit may be necessary. Proration of income results in proration of credit.

13. DECLARATION OF ESTIMATED TAX AND ESTIMATED PAYMENTS

Every person who anticipates receipt of taxable income not subject to employer withholding, or persons who engage in a business, profession, enterprise, or other activity subject to the tax shall file a declaration. It must be received on or before April 15th of the current year and must be accompanied by at least 25% of the total estimated tax due. The remaining quarterly payment due dates are: July 31, October 31 and January 31. Remit your payment along with the appropriate enclosed Estimated Tax Statements. Failure to file and pay estimated taxes may result in an assessment of interest charges. Interest will not be assessed when the total tax payments, including withholdings, are at least 90% of the current year tax liability or 100% of the prior year tax liability, and paid by January 31.

14. REFUNDS

Refunds are processed in order of receipt of a complete return or refund request. A refund request must include all proper documentation such as: W-2s, verification of date of birth (if under age 18), verification of date of move from the City of Springfield, verification of part-year resident wages, travel log (if applicable), employer verification (if applicable), and signature. Non-resident withholding refunds should be filed using a Refund Request form, available on the city website or in the tax office.

15. PENALTIES AND INTEREST

- a) Late Payment Penalty – Ten percent (10%) of unpaid tax liability.
- b) Under-Payment of Estimated Tax – If at least 90% of the tax liability or 100% of the prior year's tax liability is not paid (including withholdings) by January 31. The assessment is 7.5% of the difference between 90% of the tax liability and the total payments and withholdings.
- c) Late Filing Penalty –
\$25.00 if postmarked or received within 30 days of due date.
\$50.00 if postmarked or received within 120 days of due date.
\$100.00 if postmarked or received more than 120 days after due date.
- d) Late Payment Interest – 1% per month of unpaid tax liability, assessed on the 15th of each month.
