## **Your City at Work for You**

SPRINGFIELD, OH—(May 10, 2016)— The City of Springfield has recently begun a community engagement process in order to gather feedback from its residents. As a part of this process, an online survey has been created to gather feedback.

The online survey, which is being conducted by a third-party, will consist of 30 questions focusing on services provided by the City. To take the survey please visit our website at [www.springfieldohio.gov](http://www.springfieldohio.gov). The survey will be open until May 27, 2016.

"It's our hope that all Springfield community members will take the time to provide their input," said Jim Bodenmiller, the City of Springfield's city manager. "We want to know the areas the city is doing well and the areas where improvements could be made. Your feedback is very important to the city."

The City of Springfield is pleased to announce that it is now on Facebook. This will allow the city to keep community members informed on upcoming events, programs, services and projects.

Springfield Police Division and Fire Rescue Division will supplement the City of Springfield's Facebook page.

"We invite all community members to "like" The City of Springfield, Ohio – Government Facebook page," said Bodenmiller. "This is a great tool to keep our city informed on important information."

The City of Springfield will be honoring all public works professionals, who provide and maintain public infrastructure and services during National Public Works Week, May 15-21, 2016.

"Public works services provided in Springfield are an integral part of our citizens' everyday lives," said Bodenmiller. "We value the role that they play in keeping Springfield safe."

During this week, communities nationwide recognize the contributions of these often-unsung heroes.

"Our public works professionals include the individuals who manage the water, sewer and public transportation infrastructure, as well as those responsible for maintaining public buildings, grounds and fleet," said Bodenmiller. "Each of these professionals play a vital role to our community's health, safety, comfort and quality of life."

For more information about Springfield's public works professionals, contact the Service Department at 937.525.5800.

For more information on these projects, please visit [www.springfieldohio.gov](http://www.springfieldohio.gov).
