

The Global Education and Peace Network is a group of citizens who have a goal of developing a globally educated populace in Springfield, Ohio.

They formed following a City of Springfield Study Circle held to dialogue about the events on September 11, 2001. The group's two projects are this annual Speaker Series and production of a Global Education Calendar to build awareness of global cultures in Springfield

They are now busy planning their seventeenth annual Speaker Series which they hope will deepen intercultural understanding.

An Opportunity to become a Friend of the Global Education & Peace Network
